Non-academic Work Experience:

President and Principal Consultant, **HLN Consulting, LLC**, Palm Desert, CA, 1997 - present

Created HLN in 1997, responding to a need for technology specialists with content experience who are able to bring independent judgment to bear on technology projects. Focusing on the health care market, and public health in particular, we specialize in a wide variety of technology planning, consulting, and research.

HLN views a successful effort as one that can balance technology, organization/politics, and resource allocation; projects are approached with an eye to creating this balance. HLN Consulting, LLC utilizes a structured and document-driven development methodology that engages the client in thoughtful dialogue from requirements definition, to specification preparation, to ultimate execution. Clients include state and local government, and non-profit organizations.

Interim Vice President for Health Information Exchange Services, **Vermont Information Technology Leaders, Inc.**, Montpelier, VT, 2008 – 2009

Responsible for the design, development, delivery, and support of technical services for Vermont's statewide Regional Health Information Organization.

Consultant, **Center for Applied Research**, Philadelphia, PA, 1997 - 2002

Actively involved in research projects for the Center, mostly focusing on technology-assisted collaboration and organizational design.

University of Pennsylvania, Philadelphia, PA, 1983 - 2002

Final Position: Senior Fellow

Over fifteen years progressive experience in general university administration and management of technology. Seven years were spent with the Office of the Dean of the Wharton School (through August 1990); the remainder with the central Division of Information Systems and Computing where responsibilities included strategic planning for technology, management of network services for the campus (including electronic mail, world wide web, authentication systems), and technical architecture development. Final position was senior technology advisor to the Vice Provost for Computing (Penn's Chief Information Officer).

Academic Work Experience:

Instructor, **University of California San Diego (UCSD) Extension School**, 2011 - 2017

Course coordinator for *Concepts in Healthcare Information Technologies I and II* in HIT Certificate Program

Research Associate, **Kay Center for e-Health Research, Claremont Graduate University**, 2009 - 2011

Involved in the research agenda of the Center, including project proposal development and execution.

Senior Fellow, **Leonard Davis Institute for Health Economics**, 1994 - 2005

Research Associate, **Leonard Davis Institute for Health Economics**, 1994 - 1997

Principal investigator on New Jersey Comprehensive Immunization Program sub-contract from the University of Medicine and Dentistry of New Jersey on a Robert Wood Johnson Foundation grant. Technical advisor on other Institute projects.

Research Fellow, **Institute for Research on Higher Education**, 1988 - 1993

Perform financial modeling and policy analysis on a variety of student aid and finance projects. Actively involved in research agenda of the Institute.

Lecturer, **Department of Decision Sciences, The Wharton School**, 1984 - 1987

Teach introductory laboratory course in computer science for undergraduates using Apple Macintosh personal computer.

Sponsored Research:

Senior investigator and technical director on the Philadelphia Interactive Business Network, a \$600,000 matching grant program funded by the National Telecommunications and Information Administration (NTIA) to The Enterprise Center, Phila., PA.

Senior investigator on the Remote Dental Consultation Project, sponsored by the National Library of Medicine, to develop and prototype a remote clinical consultation system (School of Dental Medicine, University of Pennsylvania).

Principal investigator on New Jersey Comprehensive Immunization Program, a \$1.28 million sub-contract from the University of Medicine and Dentistry of New Jersey on a Robert Wood Johnson Foundation grant.

Principal investigator on Statewide Immunization Information System, a \$335,000 continuation of the above contract funded by the Jersey Department of Health and Senior Services and the Centers for Disease Control and Prevention.

Award:

Commissioner's Award, New Jersey Department of Health and Senior Services, "in recognition of creativity, perseverance, and foresight in the development of a Nationally Recognized Statewide Immunization Information System." Awarded at the Annual Conference of State and Local Health Officers of New Jersey, Princeton, NJ, October 9, 1996.

Government Testimony:

Expert Testimony, National Vaccine Advisory Committee and National Immunization Program, Centers for Disease Control and Prevention *Initiative on Immunization Registries*, Public Meeting on Resource Issues Related to State and Community-based Immunization Registries, Washington, D.C., May 13, 1998.

Response to Request for Information, "Development and Adoption of a National Health Information Network," Department of Health and Human Services, Office of the National Coordinator for Health Information Technology, January 18, 2005.

Advisory/Professional Committees:

Current Participation:

Child Health Work Group (formerly Pediatric Data Standards Special Interest Group), Health Level 7 (HL7), as of Spring 2005

Electronic Health Record Technical Committee (EHR TC) Subcommittee on Interoperability, Health Level 7 (HL7), as of Spring 2005

Pediatric Health Informatics & Technology Special Interest Group, Health Care Information and Management Systems Society (HIMSS), as of Spring 2007

Small & Independent Consultant Special Interest Group, Health Care Information and Management Systems Society (HIMSS), as of Spring 2007

American Immunization Registry Association (AIRA) Standards and Interoperability Steering Committee, as of February 2011

Stage 2/Stage 3 Meaningful Use Public Health Reporting Requirements Task Force, as of January 2013

American Immunization Registry Association (AIRA) Education Steering Committee, as of June 2013

Joint Public Health Informatics Taskforce (JPHIT), as of August 2014

Immunization Open Source Project Group, Open Source Electronic Health Record Alliance (OSEHRA), as of March 2015

Meaningful Use Open Source Project Group, Open Source Electronic Health Record Alliance (OSEHRA), as of November 2015

Public Health Informatics Workgroup Executive Committee, American Medical Informatics Association (AMIA), as of July 2016

Standards Advisory Work Group, Health Care Information and Management Systems Society (HIMSS), as of August 2016

Medicaid and Public Health Community of Practice, Office of the National Coordinator for Health Information Technology (ONC), in collaboration with Centers for Disease Control & Prevention (CDC), as of August 2016

American Immunization Registry Association (AIRA) Joint Development & Implementation (JDI) Workgroup, as of July 2015, and related subgroups:

JDI Grantee Developed IIS User Group, as of March 2015

WIR Joint Development User Group, as of April 2015

JDI Communications Workgroup, as of March 2017

JDI DQA Governance Group, as of October 2017

Past Participation:

Identity Management Task Force, Health Care Information and Management Systems Society (HIMSS), March 2014 – August 2017

Office of the National Coordinator for Health Information Technology Health Information Technology (ONC) Policy Committee (HITPC)/Health Information Technology Standards Committee (HITSC) Public Health Task Force, December 2016 – March 2017

Standards & Interoperability (S&I) Framework Data Access Framework (DAF) Work Group, as of July 2013 – March 2017

HIE inPractice Taskforce, Health Care Information and Management Systems Society (HIMSS), November 2015 – June 2016

Patient Identity Integrity Work Group, Health Care Information and Management Systems Society (HIMSS), February 2012 – June 2016

Computer Technology Advisory Committee, Ben Franklin Technology Partners of Southeastern Pennsylvania, Fall 1996 – Fall 2001

American Immunization Registry Association (AIRA) Technical Committee, Spring 2002 - Spring 2003

American Immunization Registry Association (AIRA) Emergency Preparedness and Response Committee, Fall 2002 – Summer 2005

American Immunization Registry Association (AIRA) Urban/Cities Committee, Winter 2004 – Fall 2005

Electronic Health Record (EHR) Deployment Task Force, Healthcare Information and Management Systems Society (HIMSS), Summer 2004 - Spring 2005

Healthcare Information Technology Standards Panel (HITSP) Use Case Committee, Fall 2005.

Healthcare Information Technology Standards Panel (HITSP) Technical Committees, Winter 2006 – Winter 2010

Healthcare Information Technology Standards Panel (HITSP), March 2007 – Winter 2010

California Health and Human Services (CHHS) Health IT Research and New Technologies Workgroup, May 2009 – August 2009

Connections Community of Practice, Winter 2001 – March 2010.

California Health and Human Services (CHHS) Health Information Exchange Finance Workgroup, December 2009 – April 2010

Committee on Immunization Registry Standards for Electronic Transactions (CIRSET), now the American Immunization Registry Association (AIRA) Messaging Work Group, Spring 2000 – Summer 2010

American Immunization Registry Association (AIRA) Transport Layer Work Group, Spring 2005 – Summer 2010

American Immunization Registry Association (AIRA) Data Definitions Work Group, Spring 2005 – Summer 2010

Healthcare Information Exchange Portfolio Task Force (formerly HIE Guide Workgroup), Health Care Information and Management Systems Society (HIMSS), Spring 2009 – Spring 2010.

American Immunization Registry Association (AIRA) Data Exchange Steering Committee, Spring 2005 – Fall 2010

Centers for Disease Control and Prevention, Immunization Information System Minimum Functional Standards Update Project, January 2011 – May 2011

Healthcare Information Exchange Committee, Health Care Information and Management Systems Society (HIMSS), July 2009 – June 2011

Direct Project Implementation Group, April 2010 – December 2011

Co-Chairperson, Public Health Data Standards Consortium Communication and Outreach Committee, Fall 2006 – Spring 2012

Treasurer, Public Health Data Standards Consortium (PHDSC), Fall 2007 – Summer 2012

American Medical Informatics Association (AMIA) Public Health Informatics Executive Committee, November 2010 – October 2012

Centers for Disease Control and Prevention (CDC), National Center for Immunization and Respiratory Diseases (NCIRD) Immunization Information System (IIS) Blue Ribbon Panel, Spring 2013

Standards & Interoperability (S&I) Public Health Reporting Initiative (PHRI), August 2011 – May 2014

Standards & Interoperability (S&I) Public Health Tiger Team, June 2013 – September 2015

HIE Toolkit Taskforce, Health Care Information and Management Systems Society (HIMSS), Summer 2011 – Summer 2015

Professional Affiliations:

Member, American Public Health Association

Member, American Medical Informatics Association

Fellow, Healthcare Information and Management Systems Society

Member, International Society for Disease Surveillance

Member, Open Source Electronic Health Record Alliance (OSEHRA)

Member, Southern California Public Health Association

Pioneer Member, The Internet Society

Peer Reviewer, *American Journal of Preventive Medicine*, *Journal of Healthcare Information Management* (also contributing author), and *Pediatrics*

Education:

UNIVERSITY OF PENNSYLVANIA, Ph.D. in Higher Education Administration, August 1993.

Course work includes study in higher education at the Graduate School of Education, and organization and strategy at the Wharton School.

Dissertation title: *Financial Frontier: The American University and its Banking Function*

GRADUATE SCHOOL OF EDUCATION, University of Pennsylvania, Master of Science in Education, August 1987.

Course work Includes: Strategic Planning in Higher Education, Methods of Institutional Research, Introduction to American Higher Education, Academic Information Systems, Managing People, Instructional Processes in Higher Education, Power and the Educational Process

THE WHARTON SCHOOL, University of Pennsylvania, Bachelor of Science in Economics, May 1983.

Concentrations in Management Information Systems, and Personnel Administration and Labor Relations. Record of high academic achievement. Dean's List 1982-83.

Summary of Consulting Engagements

Ongoing Consulting Engagements (month begun)

California Department of Public Health (9/16): In conjunction with the Public Health Informatics Institute (PHII), support for interoperability planning and operations for CAIR 2.0.

Centers for Disease Control and Prevention (10/14): In conjunctions with the Council of State and Territorial Epidemiologists (CSTE), HLN is developing the Reportable Condition Knowledge Management System (RCKMS), clinical decision support component of the national electronic case reporting project.

Connecticut Department of Health (9/17): In conjunction with the Public Health Informatics Institute (PHII), support for migration planning of the Immunization Information System to a new platform.

New York City Department of Health and Mental Hygiene (9/98): Project director for ongoing development and support of Citywide Immunization Registry and related systems.

New York City Department of Health and Mental Hygiene (2/17): Project director for creation of Epi-MPI to facilitate matching of patient records across research data sets.

Oregon Health Authority, Center for Public Health Practice (3/17): Study and recommend options for a school compliance system for immunization reporting.

Pfizer (7/17): Governance and maintenance of Open Source Immunization Calculation Engine vaccine evaluation and forecasting web service and tool.

Rhode Island Department of Health (3/02): Project director for ongoing development and support of KIDSNET integrated child health information system.

Veterans Health Administration (5/16): Project director for implementation support for ICE Open Source Immunization Forecasting software into VistA.

Selected Consulting Engagements Now Completed

CAQH (6/12 – 12/12): Researching various provider directory information sources and data structures to inform CAQH's Universal Provider Datasource initiative.

Centers for Disease Control and Prevention (9/13 – 6/17): Assist with Immunization Information Systems (IIS) strategic plan support, including ongoing environmental scan development, for National Center for Immunization and Respiratory Diseases (NCIRD).

Centers for Disease Control and Prevention (11/14 – 9/15): Assist with analysis of Immunization Information System policy barriers and opportunities.

Centers for Disease Control and Prevention (3/15 – 7/15): In conjunction with the Association of State and Territorial Health Officers (ASTHO), HLN developed a proof-of-concept quality assurance tool for Meaningful Use syndromic surveillance data submission.

Centers for Disease Control and Prevention (11/13 – 9/15): Assisted with analysis of EHR system Immunization Information System-centric certification.

City and County of San Francisco Department of Public Health (6/10 – 6/11): Project director for documentation and development of client-centered data warehouse.

Delaware Health Information Network (7/12 – 1/14): Strategic consulting on HIE issues.

Illinois Office of Health Information Technology (3/12 – 6/13): Assessed OHIT's current and future needs for its HIE to support consent policy and access control and to work together to select a technical architecture. Phase II was a software development project which created a prototype/reference implementation of the design selected in Phase I.

International Society for Disease Surveillance (9/10 – 1/11; 10/11-9/12): Project director for development of short and long-term strategy for Meaningful Use and syndromic surveillance for emergency department and urgent care settings, and for inpatient and ambulatory clinical care EHR data.

Minnesota Department of Health, Office of Health Information Technology (10/10 – 4/11): Reviewed state HIE plan and advise on technical architecture.

Minnesota Department of Health (2/13 – 7/13): Strategy and planning related to consumer/patient access to Minnesota Immunization Information Connection (MIIC).

Minnesota Department of Health, Office of Health Information Technology (6/13 – 1/14): State HIE strategic planning.

National Association of County & City Health Officials (3/14 – 6/14): Use case development for the Public Health Community Platform (PHCP) project.

New York eHealth Collaborative (2/16 – 4/16): Developed white paper making the case for payer participation in HIE.

NORC at the University of Chicago (7/10 – 10/11): Subject matter expert on Meaningful Use in Public Health project.

Office of the National Coordinator for Health Information Technology (10/09 – 9/13): Subject matter expert on State-level Health Information Exchange Cooperative Agreement Program. Worked with many states on HIE technical planning, including AL, HI, IA, LA, MN, RI, American Samoa and consortium of Southern states.

Office of the National Coordinator for Health Information Technology (8/13 – 1/14): Strategy and planning related to consumer/patient access to Immunization Information Systems.

Office of the National Coordinator for Health Information Technology (4/14): Environmental scans on HIE governance and HIE query standards.

Office of the National Coordinator for Health Information Technology (7/14 – 4/15): Supported ONC in developing an Interoperability Roadmap that outlines goals, focus areas, outcomes and milestones from FY14 to FY24.

Oklahoma State Department of Health (3/15 – 6/16): In conjunction with the Public Health Informatics Institute (PHII), testing and deployment support for the Oklahoma State Immunization Information System (OSIIS).

Public Health Informatics Institute (1/10): Reviewed and commented on article related to immunization information systems and HIE published by PHII.

Public Health Informatics Institute (11/11 – 8/13): Served as senior advisor on project to align immunization information systems with national health information technology directions and priorities. Assist with study of Immunization Information System-Health Information Exchange interaction. Development of white paper and issue briefs on future public health information technology capabilities.

Public Health Informatics Institute (4/16 – 6/16): Provide technical assistance to the Informatics Academy regarding online learning modules for the Immunization Information System (IIS) community.

RTI International (3/11 – 7/11): Subject matter expert on ONC-funded project to facilitate cross-border health information exchange in the Northern Midwest. Working with Minnesota.

RTI International (11/10 – 2/12): Subject matter expert on ONC-funded project to facilitate cross-border health information exchange for disaster preparedness in the Southeast and Gulf states representing Alabama and Louisiana.

San Mateo County (CA) Information Services Division (1/08 – 4/09; 11/12-3/13): Directed Applicable Client Records Search (ACRS) project focused on creating a comprehensive plan for client data consolidation and reporting.

University of California, San Diego, Beacon Community Project (12/10 – 5/12): Acting as independent reviewer of project technical direction and plans, and assisting in procurement and technical evaluation.

University of Hawai'i, Beacon Community Project (10/10 – 12/10): Acted as independent reviewer of project technical direction and plans.

University of Illinois (10/10 – 3/14): Provided technical expertise and knowledge of important technical standards and tools to Strategic Healthcare IT Advanced Research Projects on Security (SHARPS); extension of IL HIE consent policy prototype.

University of Pennsylvania (11/07): Conducted an information technology organizational review for the Division of Facilities and Real Estate Services.

Utah Department of Health (11/06 – 12/06): Led a detailed assessment of the Utah State Immunization Information System (USIIS).

Vermont Department of Health (4/08): Conducted information technology organizational review.

Vermont Information Technology Leaders, Inc. (11/05 – 7/09): Variety of projects related to State chronic disease management systems and health information exchange planning and management, including organizational review (4/08).

Washington State Department of Health (6/06 – 7/06): Led project to train staff on person matching system concepts, and to develop plan to integrate matching software into existing systems.
